GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

SITUATION SUMMARY

National Interagency Fire Center - National Preparedness Level

Preparedness Level 2

Description: Several Geographic Areas are experiencing high to extreme fire danger. Wildland fire activity is increasing, and large fires are occurring in one (1) or more Geographic Areas. Minimal mobilization of resources from other Geographic Areas is occurring. There is moderate commitment of National Resources with the potential to mobilize additional resources from other Geographic Areas.

Apparent Chemical Leak Del Monte Food Plant Sanger, Fresno County

At approximately 1330 hours a suspected chemical leak caused the evacuation of more than 100 personnel from the Del Monte Food Processing plant in Sanger, Fresno County. CA EMSA and CDPH reported that 170 people were exposed to the unknown chemical. Local EMS evaluated 21 patients, 12 of which were transported to four local hospitals with injuries ranging from minor to moderate. An additional 6 individuals self-presented to local Urgent Care and none received treatment. All resources have cleared the scene and the plant has resumed normal operations.

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

WEATHER

WEATHER SYNOPSIS BY REGION:

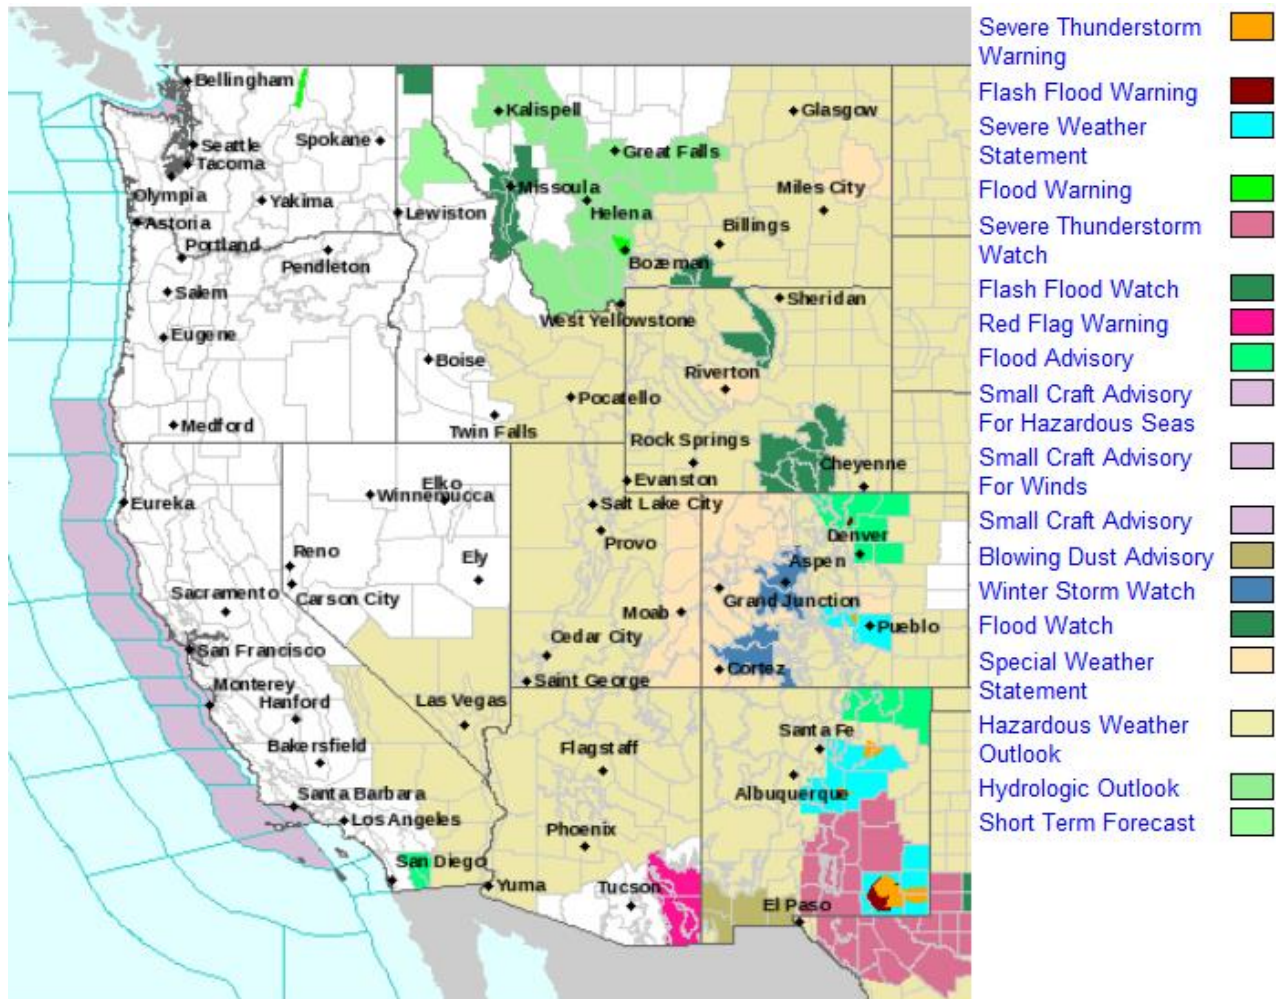

NORTHERN CALIFORNIA

Clouds have already increased over the area ahead of the front, and W-NW winds will increase as the front sweeps through the region. There is also a chance of showers and isolated thunderstorms across the far north and northeastern areas this afternoon and evening with the front. On Saturday high pressure will build over the North Ops region and produce a warming and drying trend through Sunday. Winds will be fairly light until late Sunday when the high weakens ahead of a stronger low pressure trough that will cause SW-W winds to develop across the region.

SOUTHERN CALIFORNIA

An area of low pressure currently located over the Colorado River will move slowly east as a ridge of high pressure builds into California bringing a gradual warming and drying trend to the region through early next week. There will be enough moisture and instability this afternoon to create isolated showers and thunderstorms across the Sierra and the mountains and deserts of Southern California east of the Cajon Pass. The shower and thunderstorm activity will end across the region this weekend as the ridge moves overhead. A 5,000 foot deep marine layer across Southern California will gradually shrink through early next week. A Pacific trough will drop down the West Coast bringing a cooling trend and an increase in humidity to the region Wednesday through the end of next week. Westerly winds will increase over the mountains and deserts and the marine layer will deepen over the coastal areas.

CAL OES DROUGHT ACTIVATIONS

Cal EOC Incident – 2014 Drought

- The SOC is activated at Level 2 in support of the Drought State of Emergency from 0800-1700 hours daily.
- The Inland REOC is activated at Level 2 from 0800-1700 Monday through Friday or as needed.
- The Southern REOC is activated at Level 1.
- The Santa Barbara County OA EOC is activated at Level 2 to be handled by the duty officer for the purpose of monitoring activities and gaining situational awareness. The operational period is 0800-1700 hours.

Cal EOC Incident – 2014 Drought

Situational Summary

On January 17, 2014 Governor Edmund G. Brown proclaimed a State of Emergency and directed state officials to take all necessary actions to prepare for drought conditions. The State Operation Center (SOC) is activated to implement objectives in support of the Governor's priorities. The lack of winter rain and snowfall has resulted in extremely dry conditions in many parts of the State. Reservoir levels are down significantly from where they should be on average for this time of year. If conditions continue without substantial rainfall, severe impacts to municipal water supplies, agriculture (plants and livestock) and firefighting capabilities are likely in store for the State over the next few months. Negative economic impacts will also result.

****As our state's rainy season comes to an end, it is highly unlikely that precipitation totals will increase significantly. This winter's below average rain and snowfall worsens conditions in this third straight dry year.***

The drought could result in severe impacts to the municipal water supplies, wells, agriculture (plants and livestock) and firefighting capabilities for several months. The SOC continues to be activated to monitor the situation statewide, and support regional and local operational areas.

Situational Summary (Cont.)

- The Taskforce continues to meet regularly to take actions that conserve water and coordinate state response to the drought.
- The final manual snowpack survey of the season was conducted on Thursday (May 1) and showed California snowpack at 18% of normal.
- DWR has announced that water essential for health and safety will be delivered through the state water project. The current State Water Project Allocation is 5%.
- Cal OES continues to gather drought-related costs from state agencies and local governments.

Cal OES
GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

CAL OES MISSIONS

Ongoing Cal OES Missions

- **2014-LAW-3667** CHP in Yolo County requesting Sacramento County Sheriff SAR DART for a submerged vehicle. No one is suspected to be in the car, but it is still unknown. The mission is slated for this Saturday at 0800 hours.
- **2014-LAW-2679** The 95th CST will provide Joint Hazard Assessment Team support in support of SFPD's Special Operations Bomb Squad at the 2014 Bay to Breakers Marathon. Radiation detection teams will survey background levels of radiation as part of the overall security plan. The 95th deployment will include advanced planning and pre-positioning prior to race day.
- **2014-LAW-2483** The 95th CST will provide area monitoring, secure communications, and WMD expertise for the IRL Racing Event at Sonoma Raceway August 22-24, 2014. They will assist with advanced planning and be pre-positioned prior to the start of the event.
- **2014-LAW-2481** The 95th CST will provide area monitoring, secure communications, and WMD expertise for the NHRA Racing Event at Sonoma Raceway July 25-27, 2014. They will assist with advanced planning and be pre-positioned prior to the start of the event.
- **2014-LAW-2478** The 95th CST will provide area monitoring, secure communications, and WMD expertise for the NASCAR Racing Event at Sonoma Raceway June 20-22. They will assist with advanced planning and be pre-positioned prior to the start of the event.

CAL OES MISSIONS

Ongoing Cal OES Missions (Cont.)

- **2014-LAW-2798** El Dorado County is planning an in-county SAR exercise on 07/15/14 for their volunteers and have requested the assistance of the California National Guard (CNG) aviation assets to support the exercise. Elements of the exercise will include an orientation to the various CNG air assets (H-72, H60 and CH47), hoist training, patient packaging for air evacuation and ground team insertion and extraction training.

CAL OES DEPLOYMENTS

Southern California

- Cal OES Recovery has sent the following personnel to San Diego to assist with recovery activity for the San Diego Wildfires – return dates as follows:
 - David Gillings and Clyde Muroka, Public Assistance Division returning by the evening of 5/23

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
